Who here is a sports fan?

Who here doesn't have the time to watch all the games they want to?

pasSprt

Problem: I initially chose this project because I wanted to create something that I would use. I wanted a streamlined way to view all of the day's best sports clips

With all the commitments that fill our lives week to week, we don't always have the time on gameday to watch our teams or scout the competition

Solution: pasSprt provides an easy and intuitive way to view meaningful highlights of their favorite sports in real time or at your convenience

How?: pasSprt makes use of reddit's API to aggregate video data from subreddits dedicated to soccer, football, basketball, baseball, and hockey

What is Reddit?

Reddit is a social news aggregation, web content rating, and discussion website

Stats on Reddit for those unfamiliar:

- **542 million** monthly visitors as of 2017
  - **234 million** unique users (those with accounts)
- **4**th most visited website in the US
- **9**th most visited website in the world

Content is organized by topic in what Reddit terms "subreddits" *GIVE EXAMPLES (specific & general)*

- One of the great features is… that it is so easy to add additional sports

- Test run of adding additional sports to the program
